F-LE-35

Proposition 65

Issued: October 9, 2023

California's Safe Drinking Water & Toxic Enforcement Act of 1986, commonly known as Proposition 65 (Prop 65), is designed to protect the public from toxic chemicals in drinking water, the environment, and in finished consumer products.

Fort Wayne Metals (FWM) has conducted a third-party audit and it has been determined that some of the raw materials provided by FWM contain chemicals listed in Proposition 65 (Prop 65). FWM produces raw materials in the form of rod, bar, coil, wire, strand or cables to the specification of its customers. Whether or not a Prop 65 warning is necessary for the finished product is based on what the product is and how it is used. It is ultimately the responsibility of the manufacturer, distributor, supplier, producer, packager, or importer of the finished consumer product to determine whether or not a clear and reasonable warning is required.

The most current Prop 65 chemicals can be found at <https://oehha.ca.gov/proposition-65>

This statement substitutes all previous versions issued.
